

BLACKJACK MATCH PROGRESSIVE

BLACKJACK MATCH PROGRESSIVE is an optional progressive side bet for Blackjack based on the Player's and Dealer's two (2) cards to form Player / Dealer Blackjack(s) or other winning combinations! The Player's progressive bet also qualifies for a mystery Must Hit By Jackpot Progressive.

GETTING STARTED / PLAY

To begin each round, each Player must make a standard Blackjack wager and may also place an optional Blackjack Match Progressive wager. The Blackjack Match Progressive considers both the Player's initial two (2) cards AND the Dealer's initial two (2) cards. Any Ace in the Player's first two (2) cards WINS a fixed payout. Two Aces or Two Kings PLUS a Dealer's Up-Card Ace or King qualifies for one of the four Blackjack Match Progressive Jackpot Meter payouts.

- Place a standard Blackjack bet. Player may also place a Blackjack Match Progressive bet by placing a gaming chip on the designated chip acceptor device at his/her betting position.
- At the beginning of the round, each player is dealt their initial two (2) cards. The dealer will receive one (1) card face-up and one (1) card face-down (hole card).
- After the Dealer has completed the initial deal and revealed the up card, the Dealer will immediately resolve the Blackjack Match Progressive, if the Dealer Blackjack is applicable.
- A Player's winning hand shall receive the payout for only the highest possible Blackjack Match Progressive hand.
- Must Hit by Progressive will be determined at the end of the Blackjack Match Progressive round.

BLACKJACK MATCH PAYOUTS WITH MUST HIT

WINNING HANDS

PAYOUTS

ADDITIONAL RULES OF PLAY

At the discretion of casino management, a player may place a Blackjack wager on up to three (3) betting positions providing the betting positions are adjacent to each other.

Dealer's Blackjack and Insurance wagers shall NOT apply to the Blackjack Match Progressive wager.

After all the Blackjack Match Progressive wagers are settled, each Player may act on their Blackjack hand. The Player's regular Blackjack wager will be paid or collected according to standard Blackjack game rules.

Included in our NEW Blackjack Match Progressive is a *Must Hit Progressive Jackpot*. The Must Hit Progressive feature will be activated by the dealer at the end of the round to determine if the Must Hit Progressive Jackpot has won. No additional wagering is required, and it could hit at any time.
